It is also important to note that the results of the present study are based on a cross-sectional design. While this design allows for the identification of associations between variables, it cannot establish causality. Longitudinal studies would be necessary to determine the temporal sequence of events and to assess the stability of the findings over time.

the 1980s, the 1990s, and the 2000s. The 1980s were a time of great change for the world, and the 1990s were a time of great change for the United States. The 2000s were a time of great change for the world, and the 2010s were a time of great change for the United States. The 2020s are a time of great change for the world, and the 2030s are a time of great change for the United States.
